BOEN.

EHRLICH-In this city, August 14th, to the wife of S. Ehrlich, a son.

MAHELONA-At Kalihi, Oahu, August 16th, at 1:10 p. m., infant son of Mr. Samuel Mahelona, aged 1 year.

A BIG BANKING ENTERPRISE.

Sugar to be Sold on Commission and Money to be Loaned to Sugar Manu-

London, July 26 .- A conference of delegates from the countries engaged in the production of beet sugar was held in Brussels on Monday. The conference founded a syndicate bank, which will establish branches and agencies in all the principal cities of the world. The capital will be £3,026,000. The bank will do no speculative business, but will sell sugar on commission and make loans to manufacturers. The profits of the bank will be divided among the members of the syndicate. The bank will also furnish the members with news concerning the sugar markets. The books for subscription to the capital stock will be opened simultaneously in the European centres in a short time.- N. Y. Evg. Post.

Leprosy in India. The Government has decided at last to deal with the growing evil of leprosy. A bill will be shortly introduced giving district magistrates power to order the arrest of any leper found begging or wandering about without means of subsistence. Such lepers may be detained in a retreat for life, or until their discharge is sanctioned, and, if they escape, may be recaptured by the police. No retreat will be sanc tioned unless provision is made for the segregation of the sexes. The local governments may establish retreats with any moneys placed at their disposal for hospitals, dispensaries, and lunatic asylums, and complete religious freedom will be assured to lepers in such institutions. The local governments may make rules for the management, discipline, and inspection of retreats.-|London Times' Calcutta Corres-

The Gas World says that Mr. Charles Lever, of Altrincham, has succeeded in producing direct from nat ural brine, by means of electricity, bleaching powder, caustic soda, and a solution to be used in bleaching the finest and most delicate fabrics. This discovery is likely to have the effect of revolutionizing the manufacture of bleaching powder and the placed in the hands of a collector. bleaching industry generally.
